**Sponsorship pack**

# About Bytes Conf

Bytes Conf is a Brighton based, affordable mini-conference for web enthusiasts.

Our goal is to provide a friendly, informal space and environment for local industry professionals to network and gain insights and ideas from four inspiring talks. We aim to promote diversity on our lineup and try, where possible, to give up-and-coming speakers a chance to shine. We also donate all of our profits to a charity supporting our industry.

Bytes Conf 2019 will be the fourth time we have run the event. The previous three years have seen over **200 attendees** and **raised more than £1400** for our chosen charities. So far, we've supported Life Water, Band of Brothers, the Raspberry Pi Foundation and Codebar. Last year alone we donated over £600 to Codebar!

# Raffle prize sponsorship

We aren't asking for money for expensive sponsorship slots, just raffle prize donations!

We have a raffle at the end the night with swag provided by generous sponsors. From books to coffee to laser quest, having top-notch swag helps us to raise money so we are looking for donations for our 2019 event.

If you're interested in supplying a prize let us know. In return, your company will be represented on our website, as well as at the event. We'll make sure to give you shout-outs throughout the evening!

## We are searching for refreshment donations

So far we've managed to give each Bytes Conf attendee a free drink token or two and we don't want this year to be any different! If you would like to donate refreshments or a monetary value to cover them let us know.

Again we'll make sure you are represented at the event, as well as online and on social media. Learning is thirsty work!

## Check out last years videos

To the right are links to some of our favourite talks from last year to give you a feel for the conference.

Alternatively, check out our [YouTube channel](#) where you can see every talk!

**It's easy to get overwhelmed by ALL THE THINGS in web design & development. @bytesconf seemed to break that down & celebrate how great that is. Found that very reassuring, uplifting and a good reminder of why I got into web in the first place.**

**@jazjournal**

# Our audience

Bytes Conf is attended by a diverse mix of digital industry professionals.

Most of our attendees from the Sussex region, providing a great marketing opportunity for local businesses as well as industry-related companies.

At Bytes Conf you can expect to find:

Digital designers

Web developers

UI/UX designers

Social media professionals

Anyone digital!

**Good job @bytesconf team. A great evening only slightly marred by my failure to win the socks in the raffle.**
